---

two different worlds

*Cycles of life  
We're in the dark age  
Cycles of life  
No Escaping  
Back to the dark age  
Is there hope  
We're in the dark age  
Can we escape it  
Cycles of life  
We're in the dark age*

"WILD LIFE"

# The Seduction Continues.

— The Nearest Thing to Nothing

**UNREALISTIC FEAR**

*It's Up To You*

*It's up to you to run your life  
It's up to you and no one else  
To live in wealth or die in strife  
It's up to you - it's up to you*

On this earth we live as one  
Under one sky - under one sun  
No one above - no one below  
Like a child about to grow  
Accept for all  
the world at peace  
Without your hand  
all hope will cease

It's raining  
I will dance and dance  
It's raining  
I will get wet

It's raining  
I am in a trance now, as I get wet  
It's raining - It's raining  
My clothes cling to me  
It's raining  
I will dance and dance  
It's raining - I will get wet now  
I am in a trance now, as I get wet  
My clothes cling to me  
I will undress now  
I will wipe myself dry  
I will seduce you  
You cannot resist me  
It's raining  
I will dance and dance  
It's raining

The sky is grey  
I haven't been fed today  
I've been left here  
To wither away

The day is grey  
So quickly it passed away  
There is no time  
To enjoy this day

The air is grey  
I breathe it in every day  
I feel much worse  
Than yesterday

The sky is grey  
There is something wrong today  
I cannot see  
For the smoke in the way

*Through the years they tried to synchronize  
Man and machine - machine and man  
Workers be still do not revolt  
Co-existence is our aim for you  
Man and machine - machine and man*

*Our lives are changing too fast for us  
We are bleeding; turn off the machine  
Man and machine - machine and man*

*Will it be 60 men or 1 machine  
Remove the men; turn on the machine*

*Through the years they tried to synchronize  
Man and machine - machine and man  
Workers be still do not revolt  
Co-existence is our aim for you  
Will it be 60 men or 1 machine*

*Through the years they tried to synchronize  
Man and machine - machine and man*

**Things seen and things imagined**

*You are going nowhere  
The sense of false security  
Like a lamb to the slaughter  
Safe inside your pretty home  
This illusion you have fathered*

*We must walk the path chosen  
Examine the way to go  
Consequences will follow  
In ways we do not know*

*The sense of false security  
Like a lamb to the slaughter  
Safe inside your pretty home  
This illusion you have fathered  
We must walk the path chosen  
Examine the way to go  
Consequences will follow  
In ways we do not know*

**Out of earth and sky, water and fire**

**The possibilities are endless**

**New life once every new moon**

*You are going nowhere*

# INDUSTRY

The Intruder

What happens if  
a machine breaks  
down?

**More Motion  
More Dislocation**

Night after night - Anaesthetize yourself

Night after night - A mechanical act

Night after night - A thrust of a hand

For services rendered

Will instil hearts of panic

When spoken of lightly

Night after night - In as we fall

The syntax of rage

Night after night - Night after night

Receiving the gift

Constantly expecting more of a gift

Night after night - Night after night

Beneath supervision

Night after night - A mechanical act

A thrust of a hand - For services rendered

Will instil hearts of panic

When spoken of lightly

Night after night - The syntax of rage

In as we fall

Night after night - Receiving the gift

Constantly expecting more of a gift

Night after night

*order out of chaos*
